

## Glory To God!!

There's times when something goes wrong we get upset or mad. When we get upset or mad at someone or something we need to give the Glory to God why, because God will change it from bad to good.

Don't give the glory to the devil, give the Glory to God. The devil makes things worse than it already is, God makes it better. When someone says something to you and it makes you mad give God the Glory so He can change the problem. The devil will do anything to get the glory, he tries to take it away from God, and how does he do it? From us, he uses us by trying to deceive us. We have to choose whether we are going to give Glory to God or the devil. Don't give the devil the glory, give God the Glory.
